DELTA CLEANTECH ANNOUNCES CHIEF FINANCIAL OFFICER

Regina, Saskatchewan – *Delta CleanTech Inc.* is pleased to announce the appointing of Chief Financial Officer, Jacelyn Case.

Jacelyn Case, CPA/CMA, with over 15 years of accounting and controllership experience brings a strong background in financial management and financial reporting to Delta CleanTech. Ms. Case will be responsible for all the financial management of Delta CleanTech including, but not limited to, all budgeting and forecasting, controllership of day-to-day operations, and development and maintenance of Delta's financial reporting for regulatory and banking requirements.

Jeff Allison, President of Delta CleanTech shares, “Jacelyn brings with her experience that is undoubtedly a great asset to Delta CleanTech. She understands the CleanTech industry sector and the emerging ESG corporate culture. Jacelyn will be a key player within the company, and we are pleased to have her on the Delta team.”

About Delta CleanTech

Delta CleanTech has over 16-years of experience in the Clean Tech Energy Sector and is considered a technology industry leader in CO₂ Capture; Solvent, Ethanol & Glycol Reclamation and Hydrogen Fueling Infrastructure.

Delta was one of the world's first energy technology companies to pioneer ESG solutions for corporate and government responsibility of Identity Preserved Waste™ (“IPW™”).

Delta's patented CO₂ Capture LCDesign™ and PDO Engine™ along with the Delta Reclaimer® technology provides customers with IPW solutions by providing low cost methods of capturing and utilizing CO₂ emissions that not only can they reduce the carbon footprint, but also maximize carbon utilization revenue potential, while at the same time qualifying for carbon credits recognized by Government taxing organizations.

Delta has developed intellectual property in reforming methane to hydrogen and the related production of Blue Hydrogen through the capture of CO₂ from the reforming process.
