

Making Global Waves in Abu Dhabi

January 29, 2022

Delta's global presence is rapidly growing, and the U.A.E is part of this expansion. Over the past twelve months, Delta has forged CO₂ capture collaborations with energy infrastructure engineering leaders such as Doosan Babcock of the United Kingdom with offices throughout the Gulf Cooperation Council (GCC) countries.

On January 10th, Delta held its latest Carbon Capture Workshop in Abu Dhabi to present commercially available carbon capture technologies.

Dr. Aboudheir, Delta's Chief Technology Officer presented along with Mr. Stuart Duncanson; Head of Technology Integration at Doosan Babcock.

Mr. Duncanson presented the EPC activities and the collaboration between Delta and Doosan.

Assisting and present were Doosan CEO of the Global Service Div., Mr. Luke Gallagher, and Doosan GM, Mr. Victor Chiavetta, presenting to many virtual attendees throughout the GCC countries

In 2021, Delta extended its global reach and is engaged in CO₂ projects throughout Canada, the United States, the United Kingdom, the UAE, Australia, and China.

Throughout 2022, Delta will continue to host a series of CO₂ Carbon Capture Workshops. Workshops will be held in Abu Dhabi, Calgary, Houston, Glasgow, and Beijing. **Click on the link below to register for our next workshop live from Calgary!**
