

Natural Resources Canada Contracts Delta CleanTech for CO₂ Capture Costing Database

(Calgary, Alberta) – February 14, 2022 — [Delta CleanTech Inc.](#) (“Delta” or the “Company”) ([CSE:DELT](#); [FRA:66C](#); [OTCQB:DCTIF](#)) is pleased to announce that Natural Resources Canada (“NRCan”), Canada’s top research organization, has contracted Delta to assist the NRCan with establishing a CO₂ costing and performance database.

As part of the 2021 budget, the Government of Canada is investing \$319 million dollars over the next seven years into research, demonstrations, and development to further advance the commercial viability of CCUS technologies. The funds will support businesses, non-profits, government, academia, and federal laboratories on the path to net-zero emissions by 2050.

Projects and Joint Ventures such as the establishment of CO₂ costing and performance database will contribute to the increase of knowledge in applying CCUS technologies to different facets of facilities in Canada.

Jeff Allison, President of Delta commented, “We are excited to be asked by the Natural Resources Canada to assist them in the establishment of a Costing and Performance Database for CO₂ Capture. Delta has extensive background in capital and operating costing of CO₂ capture plants and our team is sought after for their ability to model the cost and performance of these plants that have been proven to be accurate to actual performance than any other.” --- *Nrcan.gc.ca: Energy Innovation Program - Carbon capture, utilization, and storage stream*

About Delta CleanTech Inc.

[Delta CleanTech Inc.](#) is a 15-year ESG-driven, recognized global technology leader in CO₂ Capture, Decarbonization of Energy, Solvent & Glycol Reclamation, Blue Hydrogen Production, and Carbon Credit Aggregation and Management.
