Delta CleanTech Presents at the 16th Carbon Dioxide Utilization Summit – April 27-28, 2022

The North American 16th Carbon Dioxide Utilization Summit is taking place in Montreal, Quebec From April 27 to 28, 2022. Many senior experts from different industries are going to be in Montreal to discuss Carbon Dioxide Utilization in Canada and elsewhere with the focus being on sustainability, technological viability and Commercial utilization of CO₂. CO₂ utilization is one way that Canada and other countries can meet their 2030 and 2050 targets of reducing greenhouse gas emissions and meeting Carbon Net Zero targets.

Dr. Ahmed Aboudheir P.Eng., **Delta's** Chief Technology Officer will deliver a technical presentation on “**Delta** Technologies for CO₂ Capture from Flue Gases of Coal and Natural Gas Fired Boilers”.

DELTA TECHNOLOGIES FOR CO₂ CAPTURE FROM FLUE GASES OF COAL AND NATURAL GAS FIRED BOILERS

Ahmed Aboudheir, Ph.D., P.Eng.
Chief Technology Officer, Delta CleanTech Inc.,

The North American Carbon Dioxide Utilization Summit

27th – 28th April 2022 / Montreal, Canada

Jeff Allison, **Delta** President, commented on this important event, “**Delta CleanTech** is pleased to be a sponsor for the summit. We look forward to hearing and learning about innovative CO₂ utilizations in Canada and around the world”.

Throughout 2022, Delta will continue to host a series of CO₂ Carbon Capture Workshops. Workshops will be held in Abu Dhabi, Calgary, Houston, Glasgow, Beijing, & Tripoli.
