June 17<sup>th</sup>, 2022

## Register today to attend the **Delta CleanTech Inc** Carbon Capture Workshop in Abu Dhabi

**Delta CleanTech** is pleased to announce that registration is now open for the CO<sub>2</sub> Management workshop in Abu Dhabi. **Delta** will be showcasing the best technical and commercially available Carbon Capture Technologies for the removal of CO<sub>2</sub> from flue gases and tail gases. Dr. Ahmed Aboudheir, Chief Technology Officer at **Delta CleanTech**, will present this workshop highlighting proven technologies which will assist companies in meeting the Net Zero Footprint targets declared during the recent Glasgow 26th UN Climate Change Conference. The technologies of CO<sub>2</sub> capture presented in this workshop specifically target the emissions from industrial point sources such as natural gas processing, oil refineries, hydrogen production, cement plants, chemical productions and power generation.

*Dr. Aboudheir at the SVM Carbon Capture Plant in Trona, California, where he first began optimizing and commercially utilizing **Delta's** Technologies in 2005. The SVM plant is one of the oldest scaled commercial carbon capture and utilization plants in North America.*

**Delta CleanTech Inc.** is a 15-year ESG-driven, recognized global technology leader in CO<sub>2</sub> Capture, Decarbonization of Energy, Solvent & Glycol Reclamation, Blue Hydrogen Production, and Carbon Credit Aggregation and Management. **Delta** continues to provide solutions to clients all over the world in sequestering, capturing, and reducing CO<sub>2</sub> and through its Carbon Rx wholly owned subsidiary is originating, validating, digitizing, and streaming Carbon Credits.

### Registration & Fees

This workshop will be provided virtually and in person July 5, 2022 from 9 AM to 12 PM GMT+4 (Abu Dhabi Time) at the Park Rotana Hotel, at Al Salam St., Eastern Ring Road, Abu Dhabi, UAE.

Registration Fee: \$300 USD
