Delta CleanTech Adds Carbon Capture Expertise and Experience to its Regina Engineering Team

Delta is pleased to introduce the newest member of our engineering team, Travis McLeod, P.Eng. as a Senior Project Engineer. Mr. McLeod holds a BSc. in Chemical Engineering from the University of Saskatchewan. He is a Professional Engineer and holds his 4th Class Power Engineering Certificate for the operating of thermal equipment. Travis has designed, engineered and operated Carbon Capture infrastructure in Alberta and Saskatchewan and is considered a subject matter expert.

With more than 14 years of experience in Process Engineering and project management, Travis is a welcome addition to Delta. Before joining our team, he worked for Propak Systems Ltd. as a Process/Project Engineer to design and package different process skids. He then worked at both the Husky Lloydminster Upgrader and the Husky Carbon Capture Initiative at Lashburn, Saskatchewan as a Thermal Plant Engineer.

He has over six years experience with SaskPower as a Senior Engineer at the SaskPower Boundary Dam Carbon Capture Project.

Travis McLeod, Delta CleanTech's newest member to the Engineering team!

Delta's Process Engineering Manager, Walid ElMoudier, says "It is a real pleasure to bring Travis' experience with design and real time field expertise to the thriving Delta team as we continue to design and have built world-class Carbon Capture projects."

Delta CleanTech Inc. is a 15-year ESG-driven, recognized global technology leader in CO₂ Capture, Decarbonization of Energy, Solvent & Glycol Reclamation, Blue Hydrogen Production, and Carbon Credit Aggregation and Management. Delta continues to provide solutions to clients all over the world in sequestering, capturing, and reducing CO₂ and through its Carbon Rx wholly owned subsidiary is originating, validating, digitization, and streaming Carbon Credits.

Throughout 2022, Delta will continue to host a series of CO₂ Carbon Capture Workshops. Workshops will be held in Abu Dhabi, Calgary, Houston, Glasgow & Beijing.
